## **1** Introduction

## **1.1 General Introduction**

- 1.1.1 This Book of Reference is submitted as part of an application made by Anglian Water Services Limited ("the Applicant") to the Planning Inspectorate under Section 37 of the Planning Act 2008 ("the Act") for a Development Consent Order ("DCO") to authorise the construction, operation, use and maintenance of the Cambridge Waste Water Treatment Plant and associated infrastructure ("the Application").
- 1.1.2 This document has been prepared to comply with Regulation 5(2)(d) of The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 (as amended) ("the Regulations") which require an applicant for a DCO to provide a Book of Reference with their application. Regulation 7 requires the Book of Reference to be in five parts. The following paragraphs explain the approach taken by the Applicant in the drafting of this Book of Reference, taking into account the requirements of the Act and the Regulations and in accordance with the Guidance related to procedures for the compulsory acquisition of land issued by the Department for Communities and Local Government in September 2013 ("the Guidance").
- 1.1.3 The boundaries of the DCO, within which development consent for the Proposed Development is sought, are referred to as the "Order Limits" and are shown edged red on the Land Plans. Land within the Order Limits, and shown coloured on the Land Plans (Application Document Reference 4.4) and referred to in this Book of Reference (Application Document Reference 3.3), is known as the "Order Land".
- 1.1.4 This Book of Reference has been divided into five parts as required by the Regulations.
- 1.1.5 The Applicant has updated the Book of Reference with changes to land ownership identified from data provided by the Land Registry since the submission of the Book of Reference as part of the Waterbeach Scheme Order Limits Change Application. In addition, the addresses for all parties contained within the Book of Reference have been checked using either TraceIQ or Companies House. As a result, letters have been sent to new parties, informing them of have their right to apply to the Planning Inspectorate to become an Interested Party under s102A of the Planning Act 2008. The details of these parties have been added to the Book of Reference which has been included as part of the Applicant's Deadline 1 submission.

## **1.2** Introduction to Part 1 of the Book of Reference

- 1.2.1 This part contains the names and addresses for service of each person within Categories 1 and 2 (as set out in section 57 of the Act and explained below) in respect of any land which it is proposed shall be subject to: -
  - powers of compulsory acquisition

- rights to use land; or
- rights to carry out protective works to buildings.
- 1.2.2 A person is within Category 1 if the applicant, after making diligent inquiry, knows that the person is:
  - an owner; or
  - a lessee; or
  - a tenant (whatever the tenancy period); or
  - an occupier,

of the land.

- 1.2.3 A person is within Category 2 if the applicant, after making diligent inquiry, knows that the person:
  - is interested in the land; or
  - has power
    - to sell or convey the land; or
    - to release the land.
- 1.2.4 The wording "interested in the land" means that a person who is an owner, lessee or tenant of the land within Category 1 will also be within Category 2. Part 1 of this Book of Reference has been drafted in such a way to avoid repetition of persons who fall within both categories. Column (6) of the table in Part 1 lists those people who fall solely within Category 2 (i.e. each person who is not already within columns (3) to (4) but either has the power to sell, convey or release the land, or has an interest in the land by virtue of an easement or private right over land (further detail of which is contained in Part 3 of the Book of Reference)).
- 1.2.5 Column (1) of Part 1 refers to the parcel number shown on the Land Plans (Application Document Reference 4.4).
- 1.2.6 Column (2) of Part 1 describes the relevant parcel by reference to its extent and location and specifies the powers sought over that parcel in the DCO. The descriptions of the powers sought by reference to the principal articles in the DCO to which they relate and the relevant delineation on the Land Plans are explained in Table 7.1 below.
- 1.2.7 The term 'approximately' is used before all parcel area measurements because these measurements are given in square metres and each measurement is rounded to the nearest whole square metre.
- 1.2.8 The Order Limits span two separate local authority administrative areas, Cambridge City Council and South Cambridgeshire District Council, with the significant majority of the land falling within the administrative area of South Cambridgeshire District

Council. The description in Column (2) of Part 1 of the Book of Reference notes the relevant administrative area for the particular land parcel.

1.2.9 The description of a number of the parcels in Column (2) of Part 1 of the Book of Reference contain reference to interests in the land which are not to be affected by the proposed powers sought in respect of that land parcel. For example, interests belonging to the Applicant or which are Crown interests are excluded from the proposed powers of compulsory acquisition.

## **1.3** Introduction to Part 2 of the Book of Reference

- 1.3.1 This part contains the names and addresses for service of each person within Category 3 (set out in section 57 of the Act). A person is within Category 3 if the applicant thinks that, if the order as sought by the application were to be made and fully implemented, the person would or might be entitled:
  - as a result of the implementing the order;
  - as a result of the order having been implemented; or
  - as a result of the use of the land once the order has been implemented,

to make a relevant claim.

- 1.3.2 A "relevant claim" is defined in the Act as:
  - a claim under section 10 of the Compulsory Purchase Act 1965 (compensation where satisfaction not made for the taking, or injurious affection, of land subject to compulsory purchase);
  - a claim under Part 1 of the Land Compensation Act 1973 (compensation for depreciation of land value by physical factors caused by use of public works); or
  - a claim under section 152(3) of the Act.
- 1.3.3 The Statement of Reasons (Application Document Reference 3.1) explains the Applicant's approach to and its conclusions on the assessment of Category 3 persons.
- 1.3.4 Some of the entries in Part 2 of the Book of Reference do not have a corresponding land plan number. This is because 'relevant claims' may, where the relevant tests for a claim are met, be brought by persons with an interest outside of the Order Limits whose interests are not proposed to be subject to compulsory acquisition.

## 1.4 Introduction to Part 3 of the Book of Reference

1.4.1 This part sets out the names of all those persons entitled to enjoy easements or other private rights over the land (including private rights of navigation over water) which it is proposed shall be extinguished, suspended or interfered with

pursuant to the powers in the DCO. The details of the interests held by those persons are also described in Column (6) of Part 1 of the Book of Reference.

### **1.5** Introduction to Part 4 of the Book of Reference

1.5.1 This part specifies the owner of any Crown interest in the land which is proposed to be used for the purposes of the order for which the application is being made.

### **1.6** Introduction to Part 5 of the Book of Reference

1.6.1 This part specifies land, the acquisition of which is subject to special parliamentary procedure, or which is special category land, or which is replacement land. There is no such land within the Order Limits.

# 2 Relationship between the Book of Reference and the Lands Plans

- 2.1.1 Each parcel is coloured on the Land Plans. The colour of the parcel shown on the Land Plans indicates the type or types of acquisition powers sought for the land in that parcel.
- 2.1.2 The description and colour of a land parcel on the Land Plans is determined by reference to the principal land acquisition power sought in the DCO in relation to that land parcel. Part 5 of the DCO contains a number of land acquisition and land use powers, such as the power to use land temporarily and the power to interfere with existing private rights such as easements. Land parcels may, therefore, be subject to more than one type of acquisition power in the DCO which may be used in combination with the principal acquisition power, if required. The main powers are summarised in Table 2.1 and in paragraphs 2.1.4-2.1.13 below.
- 2.1.3 The most extensive range of land acquisition and land use powers are sought in relation to the land shown coloured 'pink' and identified on the Land Plans for 'Freehold acquisition', whereas the land shown coloured yellow and identified on the Land Plans as 'Interference with Private Rights Only' is only proposed to be subject to the limited powers in Articles 31 and 32 of the DCO to interfere with existing private rights such as easements.

2.1.4 Land shown coloured pink on the Land Plans is proposed to be subject to the permanent compulsory acquisition of the freehold, leasehold, tenant and/or

occupier interests in the land. Temporary possession may also be taken of this land prior to its permanent compulsory acquisition for the purposes of carrying out or maintaining the authorised development in accordance with Article 35 to the DCO.

- 2.1.5 The permanent acquisition of the interests in the land parcels coloured pink and numbered 005a; 005b; 008a; 012a; 012m; 013a; 013i; 015a; 017a; 018a; 019b; 020a; 021c; 021e; 021k; 021l; 021t; 022a; 027a; 032a; 034a is limited to the acquisition of the subsoil to the land at a depth greater than 7m below the surface of the land in accordance with the provisions in Article 30 of the DCO. These land parcels are listed in Column (2) of the Table in Schedule 11 to the DCO and are required for the Waste Water Transfer Tunnel. Whilst it is not proposed to acquire the freehold to the surface of these parcels, it is proposed to permanently acquire new rights and/or impose restrictive covenants over the land for the purposes listed in Column (3) of the Table in Schedule 11. Temporary possession for the purposes of carrying out or maintaining the authorised development may also be taken of the land, including its surface.
- 2.1.6 The compulsory acquisition of the land shown coloured blue on the Land Plans is limited to the proposed compulsory creation of new rights and/or imposition of restrictive covenants pursuant to Article 28 of the DCO and is listed in Column (1) of the Table in Schedule 10 to the DCO. The purposes for which new rights may be acquired and/or restrictive covenants imposed are set out in Column (2) of the Table in Schedule 10 and are explained further below. Temporary possession for the purposes of carrying out or maintaining the authorised development may also be taken of this land.
- 2.1.7 The compulsory acquisition of the land shown coloured brown on the Land Plans is also limited by reference to Article 28 and Schedule 10 to the DCO and is proposed to be subject to the power to create new rights only. This land is needed for permanent rights of access. Temporary possession for the purposes of carrying out or maintaining the authorised development may also be taken of this land.
- 2.1.8 Land shown coloured green on the Land Plans is proposed to be subject to powers of temporary possession pursuant to Article 35 of the DCO for the purposes of carrying out the authorised development. The land is listed in Column (2) of the Table in Schedule 12 to the DCO and the purposes for which temporary possession may be taken, together with details of the relevant Works to which these relate are explained in Columns (3) and (4) of Schedule 12. Temporary possession for the purposes of maintaining the authorised development may also be taken of this land pursuant to Article 36 of the DCO.
- 2.1.9 No powers to compulsorily acquire land or rights or restrictive covenants over land are sought in respect of the land shown coloured yellow on the Land Plans, nor is it proposed to take temporary possession of the land for the purposes of carrying out the authorised development.
- 2.1.10 All of the Order Land which is shown coloured pink, blue, brown, green and yellow on the Land Plans is proposed to be subject to the powers to extinguish or suspend

private rights pursuant to Article 31 of the DCO and the power to override easements and other rights in Article 32 to the DCO.

- 2.1.11 Land shown grey on the Land Plans (Application Document References 4.4.1 to4.4.10) is outside of the Order Limits and is not referenced in the Book of Reference.
- 2.1.12 The Statement of Reasons (Application Document Reference 3.1) contains a detailed explanation of the purpose for which the land shown on the Land Plans (Application Document References 4.4.1 to 4.4.10) is proposed to be subject to compulsory acquisition.

## **3** Classes of Rights

- 3.1.1 Schedule 10 to the DCO describes and sets out the purpose for which the compulsory acquisition powers in Article 28 to the DCO for the creation of new rights and imposition of restrictive covenants are sought.
- 3.1.2 These are replicated below in Table 3.1 for ease of cross reference against Column (2) of Part 1 of the Book of Reference and the Land Plans (Application Document References 4.4.1 to 4.4.10).
- 3.1.3 In some cases more than one package of rights will be sought over a single land parcel. For example, where a land parcel is required for the purposes of the Waterbeach Pipeline but is also subject to the proposed restrictive covenant for the Waste Water Transfer Tunnel.

	building, erection, construction or works would not cause damage to the relevant part of the authorised development)

#### 034e, 038c Final Effluent and Storm Pipeline Rights

All rights necessary for the purposes of or incidental to the construction, installation, operation, protection, repair and maintenance of that part of the authorised development comprised within Work No. 31 (referred to as "the Final Effluent and Storm Pipeline") including to–

- (a) install, connect, retain, use, maintain, inspect, alter, adjust, remove, refurbish, repair, reconstruct, replace, improve, test, commission, cleanse, , protect, manage, remove or render unusable, underground pipelines, and other associated infrastructure including but not limited to Accessories as defined in section 219 of the Water Industry Act 1991, access chambers, manholes, marker posts, telemetry infrastructure, communication and control infrastructure, monitoring apparatus, signage, and any other works as necessary;
- (b) permit the free flow and passage of final effluent, stormwater and other material through the Final Effluent and Storm Pipeline and to discharge from it into the river Cam;
- (c) decommission existing redundant infrastructure;
