| C04 | 19.02.24 | - | Sheets 1 to 11 – key updated to remove reference to ‘Works Area’ |

Contents

1 Introduction 1

Tables

Table 1.1: Schedule of plans in this application document..... 2

1 Introduction

1.1.1 The Works Plans (the Plans), listed in Table 1.1, relate to an application made by Anglian Water Services Limited (the “Applicant”) under section 37 of the Planning Act 2008 (the “2008 Act”) for a Development Consent Order (DCO) for the Cambridge Waste Water Treatment Plant Relocation Project.

1.1.2 The Plans are included in the DCO application in compliance with Regulation 5(2)(j) of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 (the “2009 Regulations”), which require:

“5(2) The application must be accompanied by—

(j) a works plan showing, in relation to existing features—

(i) the proposed location or (for a linear scheme) the proposed route and alignment of the development and works; and

(ii) the limits within which the development and works may be carried out and any limits of deviation provided for in the draft order;”

1.1.3 For ease of cross referencing, the drawing sheets have been provided with the same sheet layout, including Inset Plans and even where a particular sheet might not be relevant to a set of plans, for the following application documents: 4.2 General Arrangement Plans, 4.3 Works Plans, 4.6 Rights of Way Plans, 4.7 Access & Traffic Regulation Order Plans, and 4.8 Hedgerow and Tree Preservation Order Plans.

1.1.4 As these Plans are part of the application documentation, they should be read alongside and are informed by the other application documentation. In particular, these Plans should be read alongside Schedule 1 (Authorised Development) of the Draft Development Consent Order (Application Document Reference 2.1).

2 Revised DCO submission

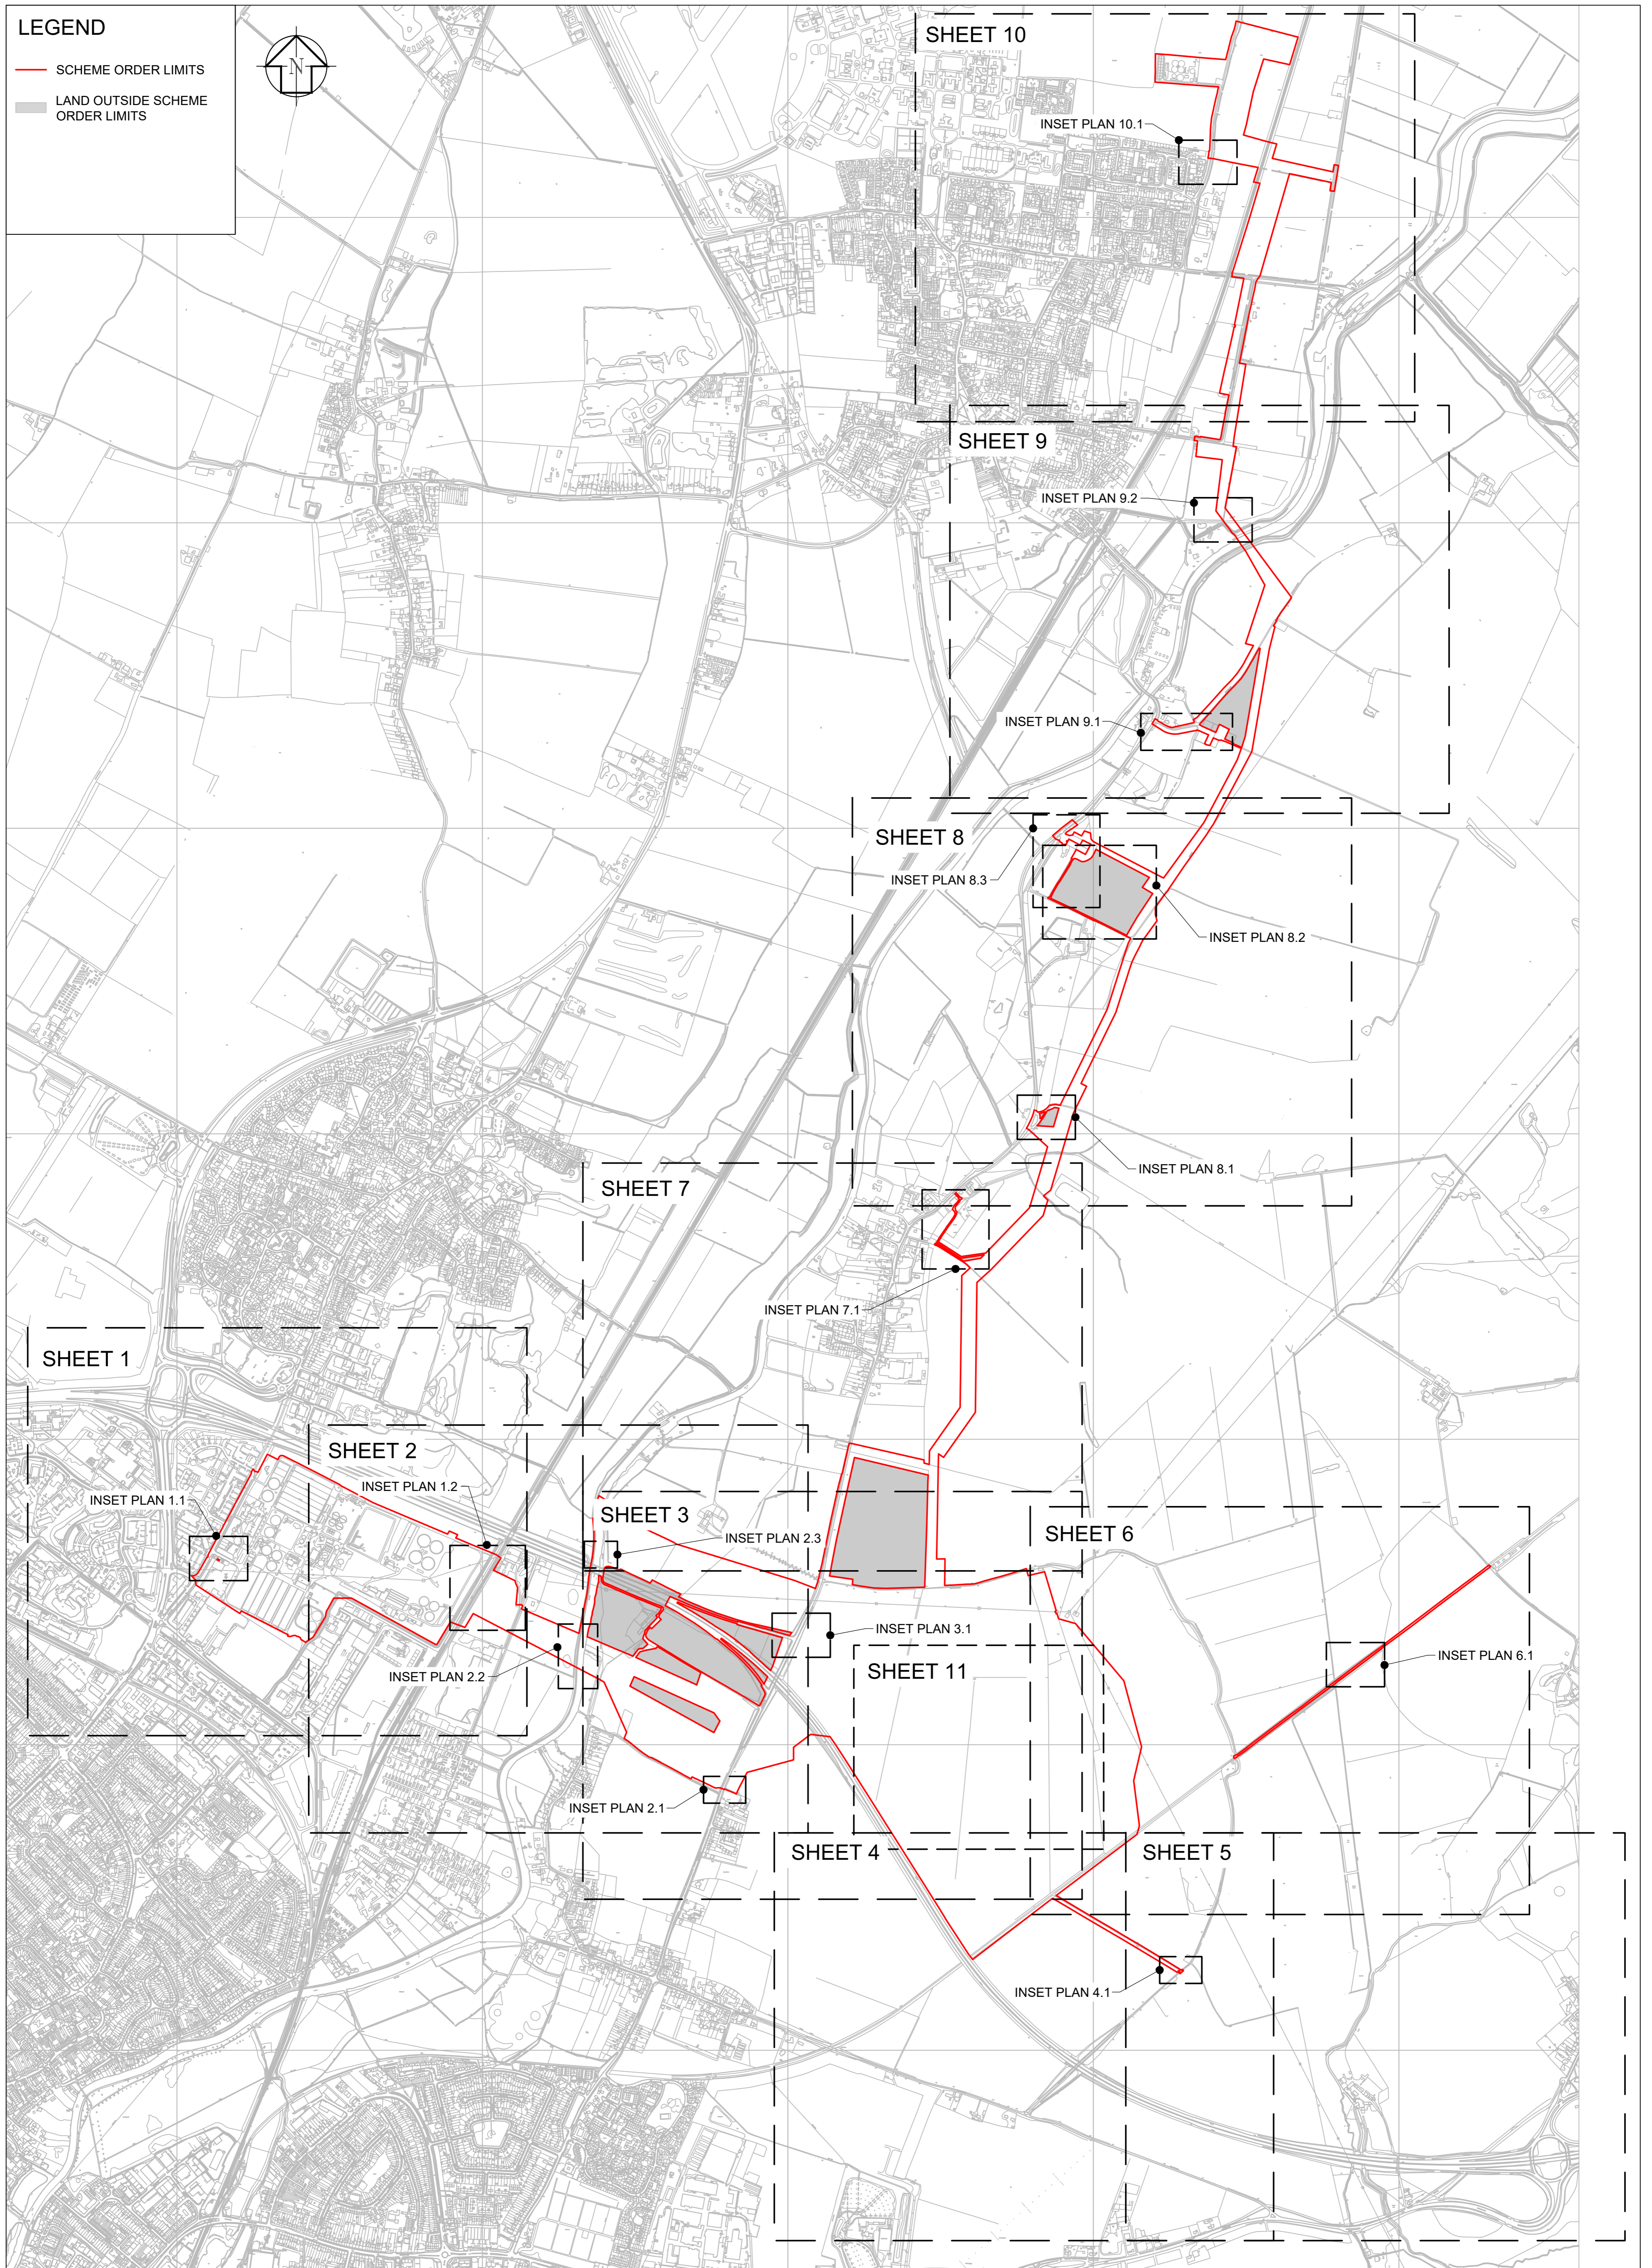

2.1.1 Work No. 40 was added to Sheets 1 and 2, while the General Notes and Legend was updated on all Works Plans sheets.
