Article 44 (Rights on the river Cam)	All references in this Article to "section 5 or 16" have been amended to "section 15 or 16"	Amendment made to correct a typographical error – licences are granted pursuant to sections 15 and 16, rather than section 5.	22 January 2024
Schedule 2, Part 1, paragraph 7	Sub-paragraph (1)(c) has been deleted and replaced with the following: "(c) hard and soft landscaping, boundary treatment, security fencing, gates and signage"	To ensure consistency with the relevant application documents	22 January 2024
Schedule 2, Part 1, paragraph 9	The word "management" in sub-paragraphs (2)(a)(vi) and (2)(b)(vi) has been replaced with the word "monitoring"	To ensure consistency with the relevant application documents	22 January 2024
Schedule 2, Part 1, paragraph 10	The word "following" in sub-paragraph (8) has been replaced with the word "upon"	This amendment was made to address the point raised by the Examining Authority at Issue Specific Hearing 3. The Examining Authority referred to the Outfall Management and Monitoring Plan and Requirement 10(8) of the draft DCO and asked if this wording should be changed to 'prior to operation' rather than 'following commencement of operation of the outfall'. The Applicant confirmed that the intention is for the plan to be implemented upon commencement of the operation of the outfall. The Applicant has since reviewed this wording and has made the change for clarity.	22 January 2024
Schedule 2, Part 1, paragraph 21	Sub-paragraph (1) has been amended to read as follows: "Prior to the operation of the authorised development a detailed carbon management plan must be submitted to and approved in writing by the relevant planning authority."	This amendment was made to address the Applicant's response to the Examining Authority's Questions 1 (question 6.21 REP1-079, 8.3) in which the Applicant stated it would be happy to change the trigger and commit to submit the detailed Operational Carbon Management Plan prior to first operation.	22 January 2024
Schedule 2, Part 1, paragraph 23	Sub-paragraph (2) has been amended to include the following:	To clarify that the discovery centre scheme to be submitted will secure the proper management of parking at the discovery	22 January 2024

APPENDIX A

Schedule of changes to the version of the draft DCO (Document 2.1, Rev 02, APP-009) in the version submitted on 29 September 2023 (Rev 03)

The changes to the latest version of the draft DCO are largely to address those items raised by the Examining Authority (“ExA”) in its Procedural Decision dated 10 August 2023 (PD-004), including those at paragraph 12, but also to reflect changes to the Requirements (Part 1, Schedule 2) as a result of the submitted draft outline management plans (as noted in paragraph 19 of the Procedural Decision and pursuant to the Applicant’s initial response to the Procedural Decision, submitted on 8 September 2023) and to Schedule 18 to reflect the updated versions of plans and documents to be certified. The Applicant has also taken the opportunity to update the protective provisions in Part 9 of Schedule 15 and is pleased to confirm that those protective provisions are now agreed with Cambridge Water.

The Applicant has also undertaken a full review of the draft DCO and made some further drafting amendments for clarity.

With regard specifically to paragraph 12(o), (p) and (r) of the ExA’s Procedural Decision, the Applicant would highlight that no changes have been made to the draft DCO at this stage and would comment as follows:

Extract from ExA’s Procedural Decision dated 10 August 2023 (PD-004)	Applicant’s response
12(o) Schedule 6 Part 1 and Part 2 refer to the “rights of way plans” followed by various document reference numbers. Please check this is correct given that the rights of way plans [APP-020] has a document reference of 4.6.	The Applicant’s approach to the drafting of the DCO is to refer to a particular sheet within a series of documents where relevant, for example, using 4.6.1 to refer to sheet 1 of that plan series which is the relevant sheet identifying the extent of a public right of way to be temporarily closed, rather than 4.6 which the whole series of plans.
12(p) Various schedules refer to the “access and traffic regulation order plans” followed by various document reference numbers. Please check this is correct given that the access and traffic regulation order plans [APP-021] has a document reference of 4.7.	The Applicant’s approach to the drafting of the DCO is to refer to a particular sheet within a series of documents where relevant, for example, using 4.7.1 to refer to sheet 1 which is the relevant sheet identifying the length of street to be closed, rather than 4.7 which identifies the whole series of plans.
12(r) Schedule 15 - Planning Inspectorate Advice Note 15 states that “If Protective Provisions for more than one protected party are included in a single Schedule, SI drafting requires the numbering of the paragraphs to follow sequentially throughout the Schedule and not re-start at ‘1’ with each part (as with all textual Schedules in several parts)”. Please adopt this approach in the draft DCO.	The Applicant notes the Advice Note, but having reviewed various other DCOs the Applicant notes that there is no consistency of approach, for example, The Hornsea Four Offshore Wind Farm Order made as recently as July 2023 does not use sequential numbering in its protective provisions schedule. The Applicant is content to adopt the approach in Advice Note 15 if required but proposes that sequential numbering is added in the final version of the DCO to be submitted. This is because the protective

Section/Article No. and title	Change	Reason	Date of Draft
Article 2	A definition of 'HGV' has been added.	The acronym HGV was used in the DCO but was not defined. As requested by the ExA, the Applicant has added a definition for clarity and to confirm the type of vehicle which is to be considered a HGV for the purposes of the drafting.	29 September 2023
Article 2	A definition of 'LGV' has been added.	The DCO previously referred to 'light goods vehicles' which was not defined. As requested by the ExA, the Applicant has added the definition for clarity. This now confirms the type of vehicle which is to be considered an LGV for the purpose of the drafting.	29 September 2023
Article 2	A definition of CWRP Relocation Limited has been added as follows: <i>"CWRP Relocation Limited" means CWRP Relocation Limited (company registration number 12219644).</i>	Amendment made at the request of the ExA. The Applicant agrees that the definition would add clarity as whilst a company name can change, the company registration number is fixed. The change provides certainty as to the identity of the company.	29 September 2023
Article 18	Article 18(1)(f) has been amended to add commas as follows: the alteration of any street further to article 11(1) or (2) (power to alter the layout, etc, of streets); or	Amendment made to add commas as Article 11 uses these commas. As this is a reference to Article 11 in this Article 18, the reference must fully match the title of Article 11 as it appears in the DCO.	29 September 2023

Article 21	Amendment made to remove 'and' in Article 21(1)(a) as follows: survey, monitor and or investigate the land including aerial surveys carried out by drone;	Amendment made to correct an error. The correct word to use is 'or'.	29 September 2023
Article 22	Article 22(1)(b) has been amended to change the reference to paragraph (4) to paragraph (3)	Amendment made to correct the error in cross-referencing. The correct cross-reference is to paragraph (3).	
Article 23	Amendment made to Article 23(1) replace the use of 'or' with 'and' as follows: Save in respect of trees or shrubs which come within article 24 (trees subject to tree preservation orders), or article 25 (trees in conservation areas) the undertaker may fell or lop any tree or shrub near any part of the authorised development, or cut back its roots, if it reasonably believes it to be necessary to do so to prevent the tree or shrub from obstructing or interfering with the construction, operation, use or and maintenance of the authorised development or any apparatus used in connection with the authorised development.	Amendment made for clarity as the powers need to apply to all of the elements of construction, operation, use and maintenance.	29 September 2023

Schedule 2 (Requirements) - Part 1 Requirement 10	Reference to requirement 7 in Requirement 10 has been amended to Requirement 6 (<i>approved details and amendments to them</i>).	Amendment made to correct a typographical error. Requirement 10 now correctly provides that the construction outfall management and monitoring plan and the operational outfall management and monitoring plan may be revised from time to time in accordance with Requirement 6.	29 September 2023
	Requirement 10 has been amended to require the submission and approval of a detailed construction outfall management and monitoring plan which must accord with the measures in the outline outfall management and monitoring plan which relate to construction. Requirement 10 has also been amended to require the submission and approval of a detailed operational outfall management and monitoring plan which must accord with the measures in the outline outfall management	The amendments have been made in order to incorporate reference to the new, outline outfall management and monitoring plan (a draft of which has been submitted at 29 September in response to the ExA's Procedural Decision PD-004). A detailed construction plan and a detailed operational plan will be required, both of which must accord with the relevant elements of the outline outfall management and monitoring plan.	29 September 2023

Schedule 2 (Requirements) - Part 1 Requirement 23	A new Requirement 23 has been added which requires the submission and approval of a detailed operational water quality monitoring plan. This must accord with the outline operational water quality monitoring plan.	Amendment made to include reference to the new, outline operational water quality monitoring plan (to be submitted in due course), to be certified pursuant to Article 51.	29 September 2023
Schedule 2 (Requirements) - Part 1 Requirement 24	A new Requirement 24 has been added to require the submission and approval of a scheme detailing how the discovery centre (part of the gateway building) will operate.	Amendment made to ensure that the commitments around how the discovery centre is intended to operate are secured.	29 September 2023
Schedule 2 (Requirements) - Part 2, paragraph 4	The definition of 'business day' in Schedule 2 has been removed.	As noted by the ExA, the definition in Schedule 2 was slightly different to the definition in Article 2. Since the term is already defined in Article 2 it is not necessary to duplicate the definition, therefore the definition has been retained in Article 2 only.	29 September 2023
Schedule 3 (Streets subject to street works)	The fourth row which stated ' <i>South Cambridgeshire District - Footpath 162/1 along the towpath west of the river Cam</i> ' has been deleted. Schedule 3 has also been amended to change reference to " <i>Footpath 130/16 east of Grange Farm</i> " to " <i>Footpath 130/16 south of Riverside Farm</i> ".	Upon review of the Schedule, the Applicant note that the street works powers in Article 10 do not need to apply to this street. The Applicant is content that all other streets listed in the Schedule need to remain. APPENDIX D

Schedule of changes to the version of the draft DCO (Document 2.1, Rev 05, REP1-003) in the version submitted on 18 December 2023⁴ (Rev 06)

Section/Article No. and title	Change	Reason	Date of Draft
Article 9	The word "or" has been inserted at the end of paragraph (a) and at paragraph (b)	To correct an omission – this should have been included in the first draft DCO. The 'or' is necessary to make clear that each of (a) to (d) in Article 9(1) is an alternative and not each element needs to be fulfilled by the Applicant to benefit from the defence in Article 9(1).	18 December 2023
Article 35	The notice period before entering on and taking temporary possession of land specified in article 35(2) has been amended from 14 days to 28 days	In response to concerns raised by the Save Honey Hill Group [REP1-169] that the 14 day notice period is too short	18 December 2023
Article 44	The drafting has been amended to increase the notice periods for temporary interference and permanent extinguishment of rights on the river Cam and now requires the Applicant to provide the relevant navigation authority written notice as well as providing notice in a newspaper and erecting site notice before exercising its powers in the Article.	The drafting has been amended to take account of discussions with the Conservators of the River Cam.	18 December 2023
Schedule 1, Work No.4 – Inlet works & preliminary treatment	Sub-paragraph (f) has been amended to specify that the Work No. will include two odour control units and exhaust stacks, not one.	Change made to correct an erroneous reference to one unit	18 December 2023
Schedule 1, Work No.16 – Terminal pumping station	Sub-paragraph (d) has been deleted ("an odour control unit and exhaust stack")	Change made as this Work No. will not include an odour control unit and exhaust stack	18 December 2023

Schedule 2, Part 1	Deletion of the definition of 'design and access statement'	Due to the amendment to Requirement 7, this definition is no longer used.	18 December 2023
Schedule 2, Part 1	The definition of enabling phase has been amended.	The definition has been amended in relation to the paragraph numbers only. This definition cross-refers to the Project Description (Chapter 2) (Document reference 5.2.2) and as the paragraph numbers within that document have changed, it is necessary to carry this change through to the definition.	18 December 2023
Requirement 7, Part 1, Schedule 2	<p>A new sub-paragraph 2 has been added as follows:</p> <p><i>(2) No phase incorporating Work Nos. 4 and 8 is to commence until details of the odour control unit locations and an updated odour assessment have been submitted demonstrating that odour concentrations at all sensitive receptors shown on Figure 4.5 in the odour impact assessment (Document number 5.4.18.2) will be less than 1.5 C98 OUE/m³</i></p> <p>Further, sub-paragraph 3 has been amended to state 'The details submitted must accord with the design code'.</p> <p>This has necessitated a new definition of 'design code' which has been added to the definitions at the start of Part 1.</p>	<p>The change to sub-paragraph 2 was made in order to secure compliance with the assessed odour concentrations at the nearest odour sensitive receptors as set out in the odour assessment (Document reference 5.4.18.2)</p> <p>The change to sub-paragraph 3 was made to address comments made by Save Honey Hill in its written representation regarding carbon. In its Response to Written Representations [REP2-038], the Applicant confirmed that "further design optimisation opportunities to reduce carbon impacts will continue to be investigated during detailed design of the proposed development as mentioned in the Summary of Chapter 10 of the Environmental Statement."</p> <p>The Applicant also stated in its Comments on Local Impact Reports [REP2-036] that "Reporting on construction carbon would form part of the detailed design requirements secured under DCO Requirement 7 which requires the approval of a Construction Method Statement for each phase, accompanied by an explanation as to how each phase accords with the Design Objectives in the Design and Access Statement."</p> <p>Having considered how best to address this, the drafting now provides for compliance with a design code. This simplifies the Requirement. The Applicant is preparing a design code addressing inter alia these points for submission at deadline 4.</p>	18 December 2023

Requirement 9, Part 1, Schedule 2	<p>Sub-paragraph 2(b)(xiv) has been redrafted as follows:</p> <p><i>(b) where the construction environmental management plan relates to any phase other than the enabling phase, include or be accompanied by the following management plans relating to the works proposed in that phase—</i></p> <p><i>(xiv) where the relevant phase includes decommissioning, a detailed decommissioning plan which must accord with the outline decommissioning plan and which must include a timescale for completion of decommissioning.</i></p>	<p>The Applicant confirmed at Deadline 1 that it would give consideration to securing a time limit to the decommissioning process. The decommissioning process is partly controlled by the environmental permitting regime, as explained in the decommissioning plan (Document reference 5.4.2.3) and therefore in order to address concerns that the Applicant was not committed to completing decommissioning within a defined period so as to enable the future development of housing, the Applicant is prepared to commit to such a timetable within the decommissioning plan once the requirements of the environmental permit surrender have been clarified in more detail.</p>	18 December 2023
Requirement 10, Part 1, Schedule 2	<p>The text below has been deleted from sub-paragraph (6):</p> <p><i>(2) details of measures for the achievement of twenty percent biodiversity net gain comprising river units within or outside of the Order limits.</i></p>	<p>The deleted text now forms part of new Requirement 25, set out below.</p>	18 December 2023
Requirement 11, Part 1, Schedule 2	<p>The text below has been deleted from paragraph (2):</p> <p><i>“The detailed LERMP submitted for approval must accord with the measures set out in the LERMP and must detail how the measures contained within it contribute towards the achievement of twenty percent biodiversity net gain for the whole of the authorised</i></p>	<p>The deleted text now forms part of new Requirement 25, set out below.</p>	18 December 2023

Requirement 25, Part 1, Schedule 2	<p>A new requirement ('<i>Biodiversity net gain</i>') has been added as follows:</p> <p>25- (1) No phase of the authorised development is to be commenced until an updated biodiversity net gain report has been submitted to and approved by the relevant planning authority.</p> <p>(5) The updated biodiversity net gain report submitted for approval must detail:</p> <ul style="list-style-type: none"> (a) how the measures contained within it deliver and secure twenty percent biodiversity net gain for the whole of the authorised development excluding any biodiversity net gain to be provided as river units; (b) details of measures to deliver and secure twenty percent biodiversity net gain comprising river units within or outside of the Order limits; and (c) details of the habitat management and monitoring of the biodiversity net gain for the whole of the authorised development. <p>(6) The updated biodiversity net gain report may be revised from time to time in accordance with requirement 6.</p>	<p>The Applicant has added this new Requirement so that all references to biodiversity net gain are addressed through one Requirement. The Applicant considers this to be a preferential approach for ease of preparing details for submission and thereafter ensuring compliance.</p> <p>The wording is modelled on the condition in Schedule 7A to the Town and Country Planning Act 1990.</p>	18 December 2023

	<p>(7) The construction and operation of the authorised development must be carried out in accordance with the approved updated biodiversity net gain report.</p> <p>This has necessitated a new definition of 'biodiversity net gain report' which has been added to the definitions at the start of Part 1</p>		
Requirement 26, Schedule 2, Part 1	A new Requirement has been added at paragraph 26 'Temporary closures of public rights of way'	This Requirement has been added in response to a request from Cambridgeshire County Council via its comments on the Applicant's Responses to the Examining Authority's Questions [REP2-040]. The County Council requested a programme of temporary closures to public rights of way. The Applicant considers this appropriate for inclusion as a new Requirement.	18 December 2023
Schedule 14	References to 'maximum parameter' have been changed to 'maximum design parameter'.	Change made to ensure consistency as both terms have the same meaning and therefore it is considered appropriate to use the same term throughout the Schedule.	18 December 2023
Schedule 14 – Part 11	The maximum height of the digestion plant area has been amended from 29m to 30.4m.	The change to the maximum height of the digestion plant area was made to correct an error. The maximum height is the height of the tallest structure within the area, which is 30.4m, as per the third row of Part 11.	18 December 2023
Schedule 14 – Part 14	Part 14 has been amended to change the total area to '50m x 50m' and add a new line for 'total height' which is '27m AOD'	<p>Part 14 incorrectly included the area and height as one parameter but these are two separate elements, as is now made clear by the addition of a new row.</p> <p>For the avoidance of doubt, the total height is the height of the tallest structure which is the stripping/scrubbing column and therefore the overall total height is the same as the stripping/scrubbing column height of 27m AOD.</p>	18 December 2023

		of the outfall. The Applicant has since reviewed this wording and has made the change for clarity.	
Schedule 2, Part 1, paragraph 21	Sub-paragraph (1) has been amended to read as follows: "Prior to the operation of the authorised development a detailed carbon management plan must be submitted to and approved in writing by the relevant planning authority."	This amendment was made to address the Applicant's response to the Examining Authority's Questions 1 (question 6.21 REP1-079, 8.3) in which the Applicant stated it would be happy to change the trigger and commit to submit the detailed Operational Carbon Management Plan prior to first operation.	22 January 2024
Schedule 2, Part 1, paragraph 23	Sub-paragraph (2) has been amended to include the following: "(d) management of visitor parking arrangements"	To clarify that the discovery centre scheme to be submitted will secure the proper management of parking at the discovery centre, taking into account the additional parking spaces, coach parking and visitors.	22 January 2024
Schedule 2, Part 1, paragraph 25	A new sub-paragraph (2)(d) has been inserted into paragraph 25 after sub-paragraph (2)(c): "an updated biodiversity metric calculation or an explanation of why a biodiversity metric calculation is not necessary" A new sub-paragraph (5) has been added after sub-paragraph (4): "For the purposes of this requirement, "biodiversity metric calculation" means a calculation in accordance with the metric in Appendix D of the biodiversity net gain report."	This amendment was made to address the discussion at Issue Specific Hearing 3 regarding whether the updated BNG report to be submitted under Requirement 25 in the draft DCO will include an updated BNG assessment metric calculation. The Applicant confirmed during the hearing that the report would include this and that it could reference a calculation for certainty within the wording of the Requirement itself.	22 January 2024
