

Cambridge Waste Water Treatment Plant Relocation Project
Anglian Water Services Limited

Design Plans – Highways and Site Access

Application Document Reference: 4.11
PINS Project Reference: WW010003
APFP Regulation No. 5(2)k

Revision No. 04
12th April 2024

Document title	Design Plans - Highways
Version No.	C04
Date Approved	28.01.23
Date 1st Issued	30.01.23

Version History

Version	Date	Author	Description of change
C01	30.01.23	-	DCO Submission
C02	19.02.24	-	4.11.1 & 4.11.3 updated to reflect and increase in the height of the bridge parapet. 4.11.7 is a new plan showing the routing of AILs
C03	02.04.24	-	Sheet number 7 updated to reflect ISH4 Action Point.
C04	12.04.24	-	Table 1.1 drawing numbers and revisions updated. New drawing number assigned to Sheet 6 due to duplication with a Building Design plan. Sheet 7 amended to correctly refer to C03 in bottom right corner.

Tables

	Table 1-1: Schedule of plans in this application document.....	1
--	---	----------

1 Introduction

- 1.1.1 The ‘Design Plans - Highways’ (the Plans), listed in Table 1.1, relate to an application made by Anglian Water Services Limited (the “Applicant”) under section 37 of the Planning Act 2008 (the “2008 Act”) for a Development Consent Order (DCO) for the Cambridge Waste Water Treatment Plant Relocation Project.
- 1.1.2 The Plans are included in the DCO application in compliance with Regulation 5(2)(o) of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 (the “2009 Regulations”), which require:

“5(2) The application must be accompanied by—

(o) “any other plans, drawings and sections necessary to describe the proposals for which development consent is sought, showing details of design, external appearance, and the preferred layout of buildings or structures, drainage, surface water management, means of vehicular and pedestrian access, any car parking to be provided, and means of landscaping;”
- 1.1.3 As these Plans are part of the application documentation, they should be read alongside and are informed by the other application documentation. In particular, these Plans should be read alongside Schedule 1 (Authorised Development) of the Draft Development Consent Order (Application Document Reference 2.1) and the Works Plans (Application Document Reference 4.3).

Table 1-1: Schedule of plans in this application document

Application Document Ref	Document Title	Drawing Number	Revision	Status

4.11.6	4.11.6 Design Plans – Highways (Sheet 6) Horningsea Road & Proposed WWTP Highway Authorities Area Plan	00001-100006-CAMEST-ZZZ-LAY-Z-9907	C02	S4
4.11.7	4.11.7 Design Plans - Highways (Sheet 7) Horningsea Road & Proposed WWTP Proposed Abnormal Indivisible Load (AIL) Vehicle Site Access Routes	00001-100006-CAMEST-ZZZ-LAY-Z-9900	C03	S4

GENERAL NOTES

- All dimensions are in metres unless otherwise shown.
- All levels are in metres above Ordnance Datum (AOD).
- All dimensions & levels should be checked on site.
- The drawing is based on OS mapping and topographic survey information.
- The information is preliminary and subject to further detailed design.
- The drawing does not include any information on existing or proposed utilities or other existing assets that may need to be protected or diverted as part of the works.
- The design assumes an embankment slope of 1:3 is acceptable to the relevant stakeholders.
- The design is based on the requirements of Design Manual for Roads and Bridges.
- Street lighting on Horningsea Road to remain as existing with minor changes to the locations of the lamp columns due to the reconfigured 'off-slip' junction and the realignment of Horningsea Road.
- DRAWING MUST BE READ IN COLOUR**

PROJECT TITLE
CAMBRIDGE WASTE WATER TREATMENT PLANT RELOCATION PROJECT

DRAWING TITLE
4.11.1 DESIGN PLANS - HIGHWAYS (Sheet 1) HORNINGSEA ROAD & PROPOSED WWTP ACCESS LAYOUT PLAN REGULATION 5(2)(o)

The plan is produced by Anglian Water Services Limited, from Ordnance Survey Crown Copyright, Licence 100022432. This map is to be used for the purposes of viewing the location of Anglian Water plant only. Any other use of the map data or further copies are not permitted. This notice is not intended to exclude or restrict liability for death or personal injury resulting from negligence. The original document stored in the BIM 360 Doc Project carry the version, suitability code, revision and approval information. Prints are uncontrolled and shall not be used for construction.

DRAWING No. **00001-100006-CAMEST-ZZZ-LAY-Z-9808**

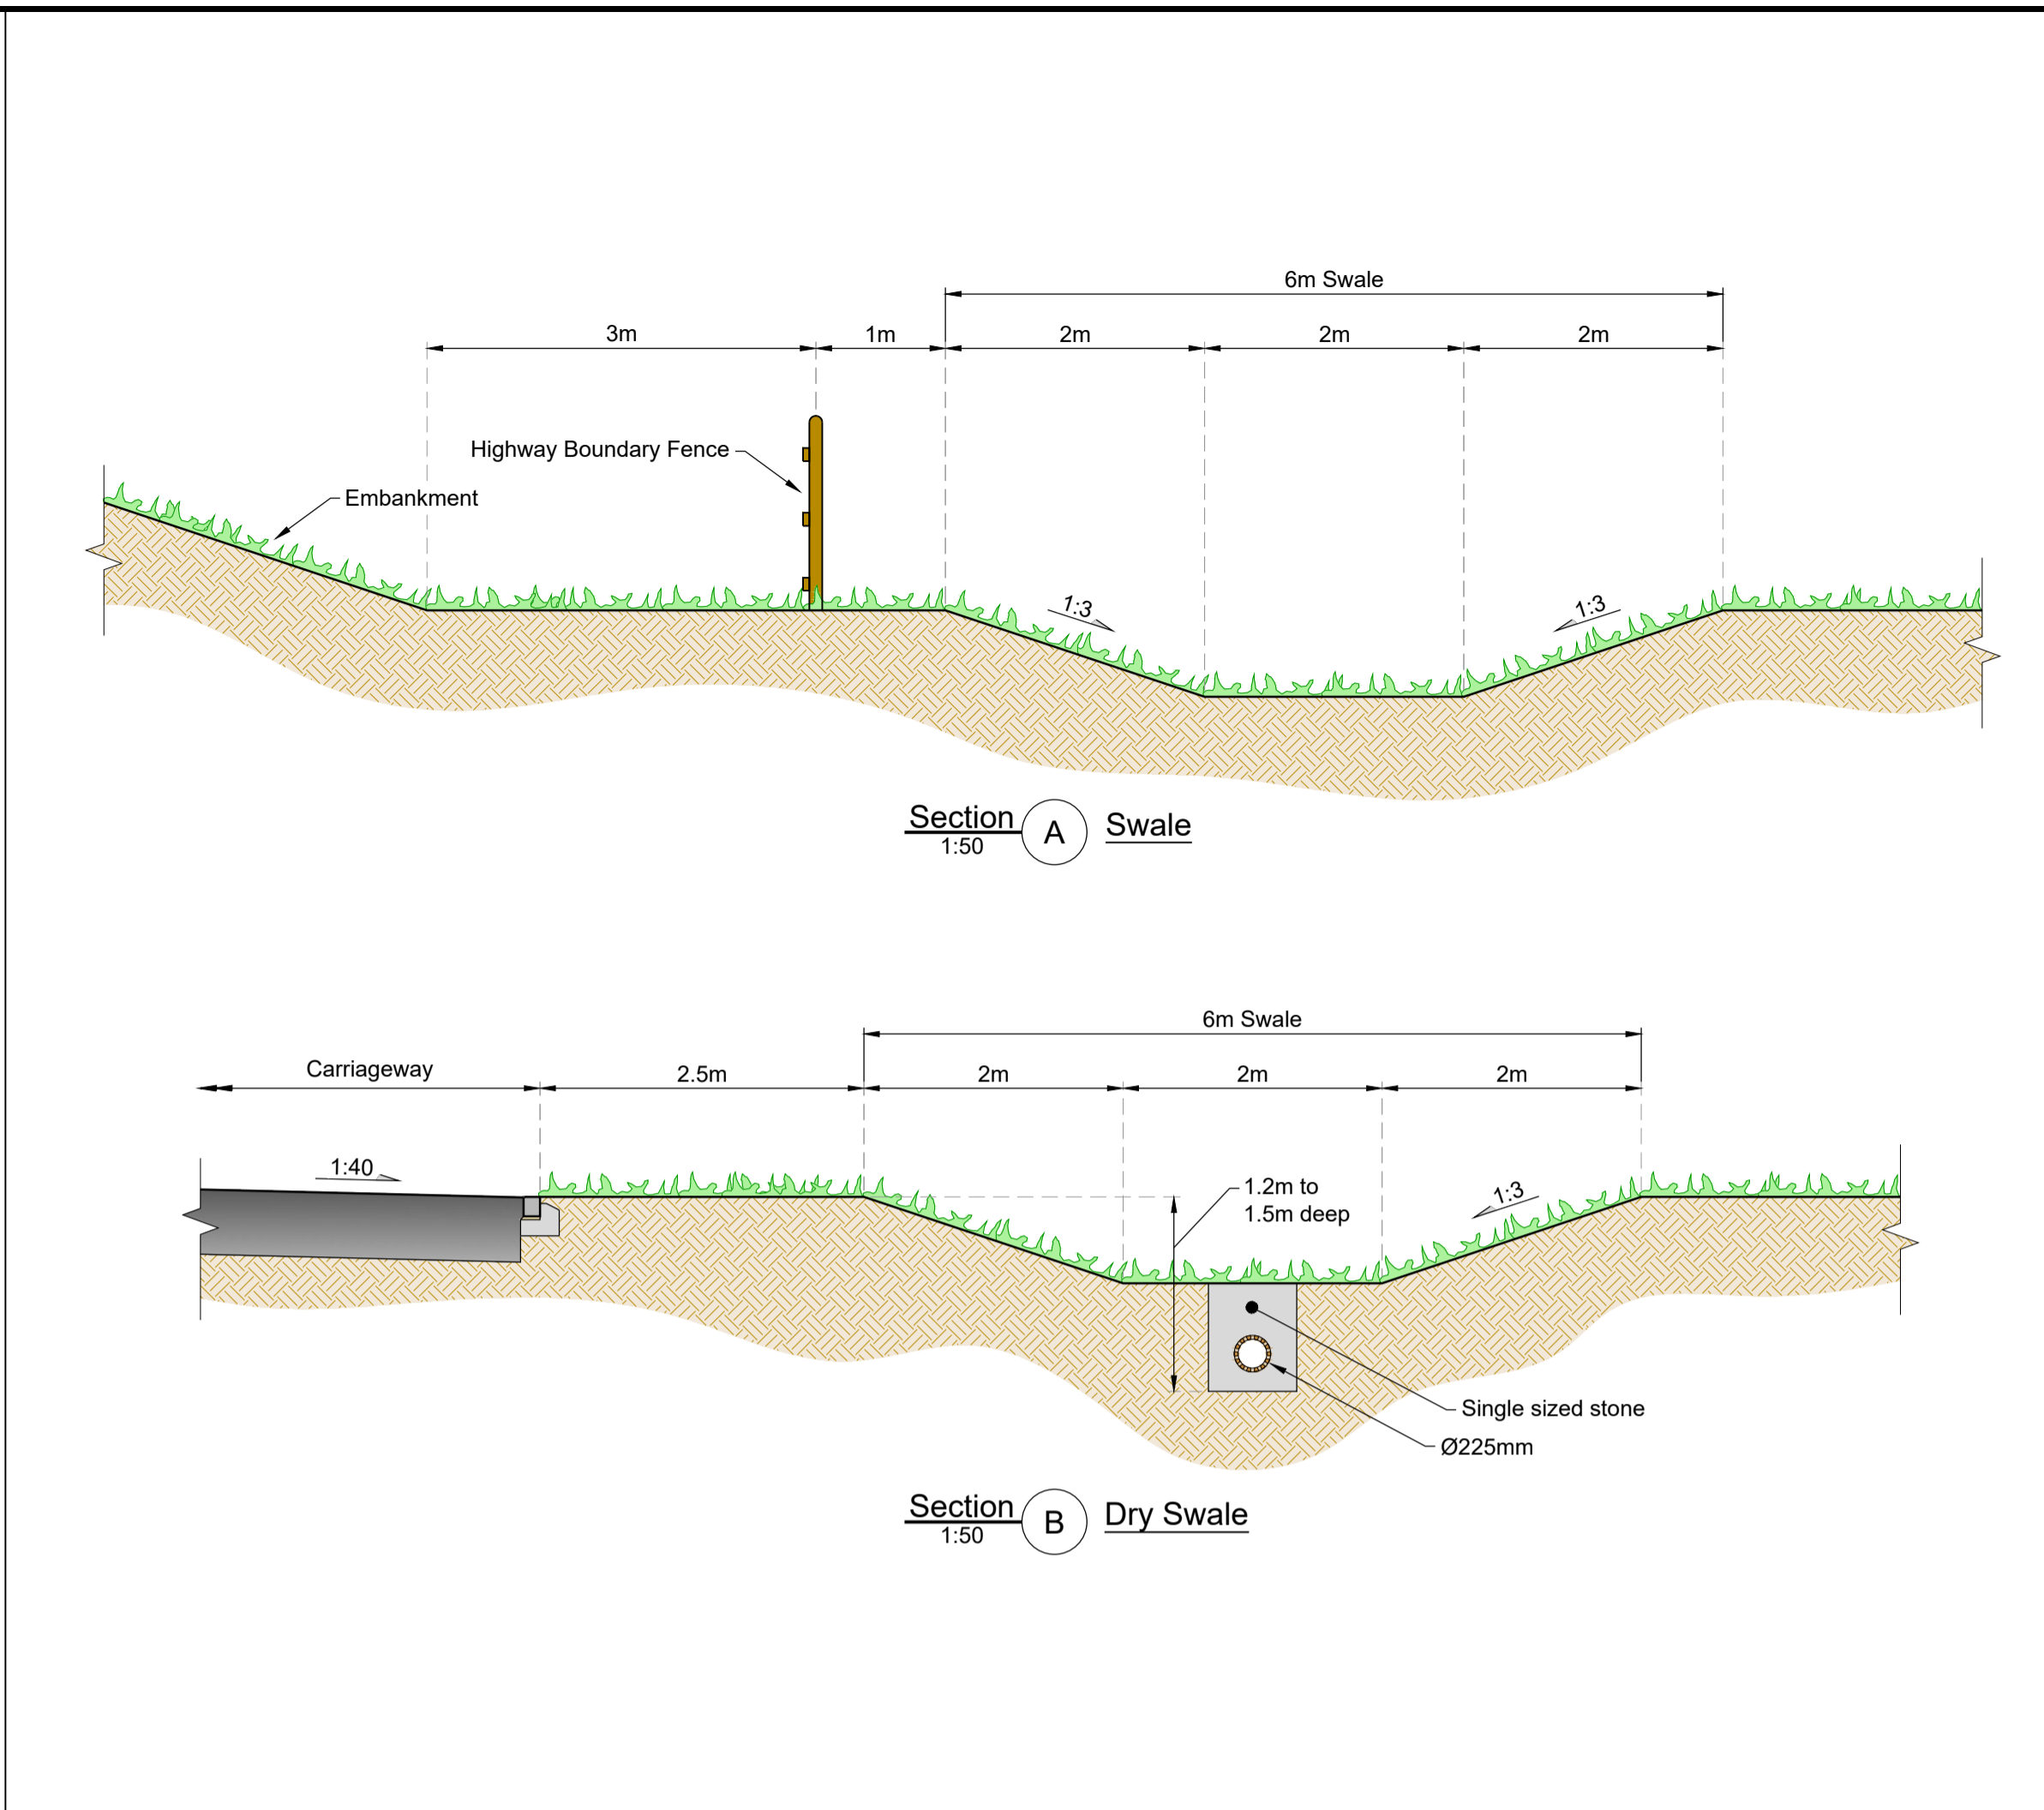

REV. STAT. **A1**
C02 S4

GENERAL NOTES

- All dimensions are in metres unless otherwise shown.
- All levels are in metres above Ordnance Datum (AOD).
- All dimensions & levels should be checked on site.
- The drawing is based on OS mapping and topographic survey information.
- The information is preliminary and subject to further detailed design.
- The drawing does not include any information on existing or proposed utilities or other existing assets that may need to be protected or diverted as part of the works.
- The design assumes an embankment slope of 1:3 is acceptable to the relevant stakeholders.
- The design is based on the requirements of Design Manual for Roads and Bridges.
- The proposed drainage design assumes that a suitable discharge point is available into the existing watercourse on the eastern side of Horningsea Road.
- It is assumed that a controlled discharge into the existing watercourse at Greenfield run off rates is acceptable to the Lead Local Flood Authority.
- It is assumed that the storage volume within the SUDS swale system is sufficient to attenuate surface water flows to greenfield run off rates for a 100 year return period storm with allowance for climate change.
- The existing highway drainage system on Horningsea Road will need to be verified and surveyed to establish the location of pipes, gully connection, outfall locations etc. in order to make the proposed changes to the existing highway drainage on Horningsea Road.
- The extent of the drainage catchment includes the site access road (up to the site main gates), visitors car park and office roof drainage.
- It is assumed that existing highway drainage network on Horningsea Road is sufficient in terms of capacity and condition to accept flows from the realigned carriageway of Horningsea Road.

LEGEND

- Proposed SW Drain Pipe & Manhole
- IL Invert Level of drainage feature
- GL Ground Level
- Existing gullies within carriageway to be relocated on realigned kerblines. Existing gully connections to be reused where possible.
- Carriageway
- Footway
- Tactile Paving (Buff - Uncontrolled)
- Tactile Paving (Red - Controlled)
- Verge

REV. STAT. A1 C02 S4

GENERAL NOTES

1. All dimensions are in metres unless otherwise shown.
2. All levels are in metres above Ordnance Datum (AOD).
3. All dimensions & levels should be checked on site.
4. The drawing is based on OS mapping information and LIDAR data.
5. The information is preliminary and subject to further detailed design.
6. The design has not been submitted to the Highway Authority or National Highways for their technical review.
7. The drawing does not include any information on proposed highway drainage and associated SUDS, existing or proposed utilities or other existing assets that may need to be protected or diverted as part of the works.
8. The design requires works to the public highway and would require further discussions with the relevant stakeholders. The design is subject to change.
9. The drawings do not include any street lighting or other highway infrastructure which may be required as part of the overall scheme design.
10. The design assumes an embankment slope of 1:3 is acceptable to the relevant stakeholders.
11. The design is based on the requirements of Design Manual for Roads and Bridges. Manual for Streets has been adopted for some extents of the proposed access roads.
12. DRAWING MUST BE READ IN COLOUR
